Chapter 1: “The Thing About Me Dying”

Six actors built America’s favorite sitcom. Millions tuned in. Billboards lit the skyline. Then one of them died . . .

A beloved cast member of a hit ensemble sitcom dies under mysterious circumstances, sending shockwaves through Hollywood and revealing the secrets, betrayals, and desires lurking beneath the glittering facade. As the surviving cast members confront their past, old rivalries and hidden truths emerge and the line between life and performance begins to blur.

Tom King, Gabriel Hernández Walta, and Jordie Bellaire—creators of the Eisner Award-winning *The Vision*—deliver a brutal Hollywood noir: a story about grief, ambition, and the lies we tell to keep the show alive.

- **From Eisner award-winning best-selling author of *Helen of Wyndhorn*, *The Human Target*, *Supergirl: Woman of Tomorrow*, *Love Everlasting*, *Mister Miracle*, *The Vision*, *The Sheriff of Babylon*!**

Set generations before the current science cycle, in a time when magic is at its peak and Kaoso is thriving, Syg the White Hart eschews the wishes of his family and the will of the Academy, by hitching a ride on a Vojoganto to the center of the universe—Akva—to understand the cause behind what he believes to be the inevitable collapse of the universe as he knows it. Accompanied by his lifelong friend, an accused heretic named Markus, the two set out to unlock the secrets of life and stop the worlds' collapse. At the same time, there are forces set out to bring about the inevitable change and reawaken the God Machine of Ordo, thereby kickstarting the beginning of the next science cycle and the downfall of magic. Will Syg and Markus be able to complete their mission, or will their time be cut short by the next cosmic shift?

The Big One, the earthquake to end all earthquakes, has finally struck Los Angeles. The government decides not to rebuild and the city becomes a no man's land for those that refuse to leave it. *But hey, you can't beat the weather.*

Five years later Ester Blanco, a down on her luck former P.I., is willing to do anything to escape the City of Angels. She believes she's found her ticket out when a desperate father hires her to solve a missing person's case in a city where a third of the population is already missing. Instead, the trail of this lost girl leads Ester to uncover a dark web of cults, conspiracy and corruption that threatens every Angeleno that stayed behind.

THE BIG SHAKEDOWN is a sun-baked LA noir in the vein of *Chinatown* and *The Long Goodbye* and set in the post-apocalyptic remains of the most beloved/hated city in the world. From writers Jordan Blum (*Minor Threats*) Tim Seeley (*Local Man*) and artist Scott Koblisch (*The Despicable Deadpool*) comes a pulpy tale of murder, destruction and traffic.

DRACULA BOOK 3: THE COUNT

136pgs • \$29.99 • October 20, 2026
ISBN: 9781506754611

Matt Wagner (W) Kelley Jones (A)
José Villarrubia (C) Rob Leigh (L)

Following the massive success of Book One: *The Impaler* and Book Two: *The Brides*, Matt Wagner and Kelley Jones continue their story between the lines of Dracula in this third volume!

"One of the distinctive aspects of Stoker's original novel is that it's epistolary . . . told exclusively in the form of journal entries, letters of correspondence and news articles. The only voice missing from these various narrations is the most crucial one of all . . . Dracula himself! So our version of these events is narrated by Dracula himself . . . from inside the mind of an unrepentant monster. As Kelley said, this volume was the most challenging in regards to accuracy as the events of the original novel are well-recorded, analyzed and annotated. And Kelley has absolutely brought his A+ game to this narrative. If you thought his work of books I & II was spectacular, wait'll you see how he brings Dracula to life (er . . . undeath) on the foggy streets of Victorian London! I'll say it again . . . this is the story that Kelley Jones was born to draw! And I'm the lucky bastard who got to write it!" This 136-page graphic novel explores Dracula's first weeks in London and his plot to rule the city from the inside out, no matter how much bloodshed it takes.
