**Bestselling author Tom Gauld's
comedic still life of a moon colony
in decline—now in paperback!**

Mooncop

Written by TOM GAULD

“Living on the moon . . .
Whatever were we thinking? . . .
It seems so silly now.”

The lunar colony is slowly winding down, like a small town circumvented by a brand-new super highway. Our hero, the Mooncop makes his daily rounds, his beat growing ever smaller as the population dwindles. His most pressing engagements: a young runaway who doesn't get very far, a dog breaking off his leash, and an out-of-date automaton wandering off from the Museum of the Moon. What's a man on the moon to do as human company gets harder and harder to come by?

Now available in paperback for the first time, Tom Gauld's *Mooncop* is a prescient reflection on humanity besieged by late-stage capitalism and ever advancing technology. Equal parts funny and melancholy, Gauld's matter-of-fact storytelling is a testament to his dedication to the craft of cartooning.

My New York Diary

In 1991, pioneering cartoonist Julie Doucet packed up her life and moved to New York. Thirty-five years later, the diary she kept lives on as a classic of autobio and literary comics.

Doucet takes readers through a chaotic yet deeply relatable time. Trouble crops up at every other turn through a toxic on-again-off-again relationship, her creative insecurities in a male-dominated art scene, her worsening epilepsy, and a tendency to self-medicate with booze and drugs. This unapologetic, no-holds-barred account of an artist's day-to-day in her mid-20s captures the highs and lows of modern womanhood. New York's 90s underground scene comes to life in strikingly detailed panels.

Service-1 and Chef-9 dutifully perform their assigned functions at the White House. Their roles bring them into daily contact, but familiarity means little to robotic programming, until Chef-9 learns that Service-1 is set to be decommissioned. Chef-9 starts to wonder if their feelings could be something more?

As rumors of violence from Canada begin to threaten the President's invasion plans, the biggest threat might be closer than they realized: a rogue robot with a head full of state secrets.

The Mass Market Hardcover features the complete three-issue series.

and LOÏC CHEVALLIER

1776. The colonies are outgunned, outmanned, and out of time. While Washington's ragged army faces the full might of the British Empire, a different kind of battle begins across the Atlantic. Silas Deane, a Connecticut merchant turned secret envoy, is dispatched by the Continental Congress on a mission that could decide the fate of the rebellion: secure weapons, gunpowder, and allies from the French. But Deane cannot succeed alone. He befriends the unlikely partner Pierre-Augustin Caron de Beaumarchais, a playwright, celebrity, political fixer, and a man whose charm is as dangerous as his ambition.

Together, they navigate a treacherous world of spies, royal ministers, profiteers, and British agents determined to choke the Revolution before it can breathe.
